

Elenco ufficiale dei progetti finanziati tramite il bando Covid-19

| Linea 1 - Ambito B (terapie e procedure) | Titolo Progetto | Organizzazione | Comune | Contributo deliberato con risorse di Fondazione Umberto Veronesi | |
|---|--|---|----------------|--|--|
| B | Biological bases, prognostic consequences and therapeutic implications of the immune response in the fragile COVID19 patients | HUMANITAS MIRASOLE S.P.A. | Milano | 250.000 | |
| B | Prophylactic ApixabaN for reDuction of clinical Events in COVID-19 patients Managed at home In collaboration with general prActitioners (PANDEMIA). A randomized clinical trial. | AZIENDA SOCIO SANITARIA TERRITORIALE DI LECCO | Lecco | 249.375 | |
| Linea 1 - Ambito D (studi di popolazione) | Titolo progetto | Organizzazione | Comune | Contributo deliberato con risorse di Fondazione Umberto Veronesi | |
| D | BURDEN OF SARS-COV-2 INFECTION IN POPULATIONS WITH HIGH OR LOW RISK OF INFECTION | UNIVERSTIA' DEGLI STUDI DELL'INSUBRIA | Varese | 246.750 | |
| D | The Vo' Euganeo COVID-19 cohort: comprehensive assessment of the clinical, genomic and pathogenetic features of symptomatic and asymptomatic patients | OSPEDALE SAN RAFFAELE S.R.L. | Milano | 250.000 | |
| Linea 1 - Ambito G (individui fragili) | Titolo Progetto | Organizzazione | Comune | Contributo deliberato con risorse di Fondazione Cariplo | Contributo deliberato con risorse di Fondazione Umberto Veronesi |
| G | Impact of immune-FRAgilities on COVID-19 susceptibility and severity (FRACOVID) | OSPEDALE SAN RAFFAELE S.R.L. | Milano | | 250.000 |
| G | Impact of COVID19 infection on patients affected by inflammatory skin diseases on immuno-suppressive therapies | UNIVERSITA' HUMANITAS | Pieve Emanuele | 240.000 | |

| | | | | | |
|---|--|---|---------------------|---------|---------|
| G | SARS-CoV-2 infection in inflammatory bowel disease. Clinical and molecular analysis of risk factors for worse outcomes in this frail population | POLICLINICO SAN DONATO S.P.A. | San Donato Milanese | | 236.350 |
| G | Dissection of immune response to SARS-CoV2 in the immunocompetent and immunocompromised: pathogenesis, long-term protection and vaccine perspectives. | TRAPIANTAMI UN SORRISO - PAVIA PERI TRAPIANTI | Pavia | 250.000 | |
| G | The effect of frailty on the clinical outcomes of patients infected by COVID-19 and on the risk of infection in the elderly: FraCOVID study | UNIVERSITA' DEGLI STUDI DI MILANO - BICOCCA | Milano | 175.600 | |
| G | DigiCOVID, a Digital Platform for COVID19+ patients and caregivers, designed to facilitate communication and mental health care delivery during and after hospitalization. | FONDAZIONE IRCCS CA' GRANDA OSPEDALE MAGGIORE POLICLINICO | Milano | 249.900 | |
| G | Targeting acute immune responses and aberrant inflammation to improve the clinical outcome of elderly SARS-Cov-2 infected patients | FONDAZIONE HUMANITAS PER LA RICERCA | Milano | 84.500 | 13.650 |
